This page shows the instructions for Exam 98-366 Networking Fundamentals Practice Test 1. Please read it carefully before attempting the test. Number of Questions: The test has approximately 20-50 questions (Since Microsoft does not publish this information, the number of exam questions may change without notice) Type of Questions: This test format is multiple choices. Each question has 4 to 10 options. Duration: 60 minutes Passing Marks: 70% Marks The passing score does not mean that you must answer 70 percent of the questions correctly in order to pass the exam. The actual percentage varies from exam to exam and may be more or less than 70 percent. If a question specifies that you must choose multiple correct answers, you must choose the exact number of correct answers specified in the question in order to earn a point for that item. Attempt all questions since there are no penalties for guessing. No points are deducted for incorrect answers. You must answer each question before proceeding to the next question. If you leave the test midway through your session, you cannot resume it where you left off by returning to this page. Click below to start: The test is best viewed using Internet Explorer 6.0+, Mozilla Firefox 2.0+ or Google Chrome.
